

CON 290

Information required to answer CON29 enquiries can be obtained in two ways. Firstly, there is the Official Local Authority Search or CON29'R' and CON29'O', by which the Authority will receive an official application together with a location plan and the relevant fees. The LLC staff will then interrogate and interpret the registers and provide an official response. See the Official Local Land Charges Search section for further details.

Secondly, anyone can obtain most of the information necessary to answer the CON29 enquiries by visiting these offices or via the Council's website. The Land Charges team will provide, free of charge by email, the information that is not currently held on publicly available registers or on the website. The Property Information Request form can be downloaded, completed and emailed to LLCPI@castlepoint.gov.uk
