

Schedule of Representations on New Local Plan 2016 Sustainability Appraisal and Strategic Environmental Assessment

Rep ID	Name	Objection (Y/N)	Objection Comments	Support (Y/N)	Support Comments	Technical Comment (Y/N)	Technical Comments	Attend Examination (Y/N)
NLPSUPDOC1	Philip Bostock	N		Y	<p>It is pleasing to see a thorough assessment of local needs. There are a lot of words here! I think they describe a reasonable way forward but are short of detail. Two regions interest me: 'Hadleigh regeneration' and 'marine activity and recreation'.</p> <p>The previous attempt at a Hadleigh plan was shockingly awful. The millions wasted will never be seen again. The latest plans imply an attempt to re-create a vibrant town centre - destroyed in recent years by neglect. An open area, a town square, shops, cafes, pubs, meeting community and commercial needs.</p> <p>Counterbalanced by the heritage of St James church. Re-vitalising John Burrows community hall would be a master stroke! The new cycling facilities are excellent. Hadleigh Castle a treasure. Link them appropriately. I await detailed plans with trepidation.</p> <p>Historically the Thames, Hadleigh Ray and Benfleet Creek gave the 'reason to be' of much of this area. (Insert a long list of connections here!) Times change but the geography is still there and there is related commerce and recreation. Until recently Southend had a Foreshore Officer, now retired. Castle Point good do well to connect with the waterside enterprises in our area, clubs, boatyards, fishermen. Keep those links alive. It all adds to the richness of life in our area.</p> <p>Thank you</p>	N		N
